The Employer

PROGRESS ON OCCUPATIONAL HEALTH MILESTONES REPORTING

At the Leadership Tripartite Summit held in 2014, the mining industry stakeholders agreed on the milestone targets that needed to be achieved by 2024 to improve the performance of Occupational Health and Safety in order to achieve Zero Harm.

The following Occupational Health Milestones were agreed upon:

1. Elimination of Occupational lung diseases
2. Elimination of Noise Induced Hearing Loss
3. Reduction and prevention of TB, HIV & AIDS infections

To this end the mines are requested to do a presentation regarding the progress made on implementation of these Milestones from the year 2015 to date.

The said presentations will run for the week of 17th to 21st September 2018 in the DMR MHSA Boardroom.

Appointments for such presentations should be scheduled timeously with Ms. Dorothy Goliath (PA) in the Principal Inspectors office by email: dorothy.goliath@dmr.gov.za.

Yours sincerely,

T MATETA
ACTING PRINCIPAL INSPECTOR OF MINES
NORTHERN CAPE
